

LED 3D Crystal Light

Product Features:

- Independent intellectual property rights, patent designs, special for engineering projects;
- Using SMD3535RGB high-bright full-color lamp beads, the luminous angle is large;
- Using PU glue to fill the glue, it is not easy to crack, and the product protection level is high;
- The wire and shell are made of cold-resistant, UV-resistant and flame-retardant materials, suitable for long-term outdoor use.

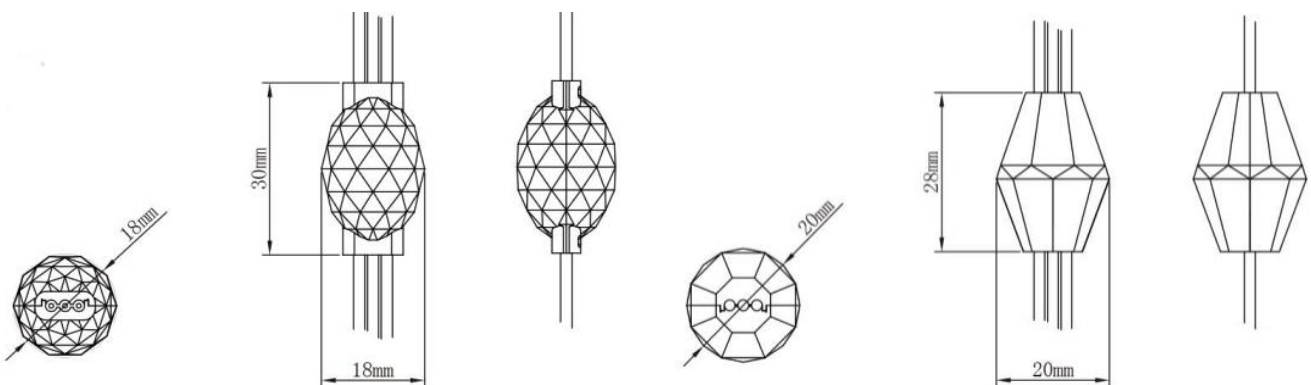

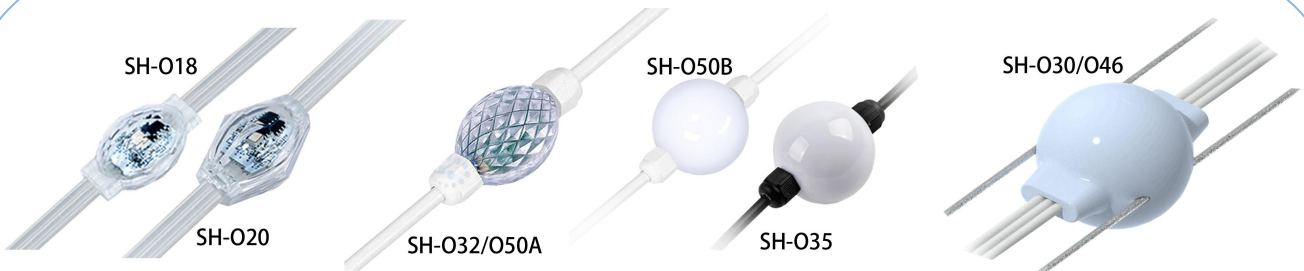

Application:

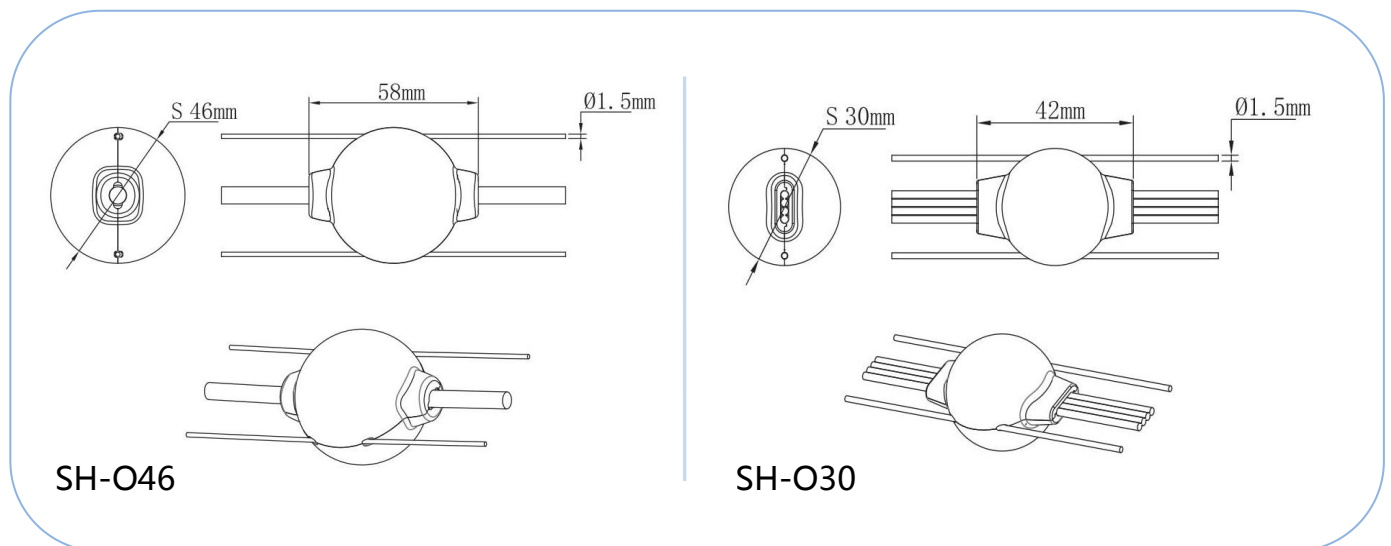

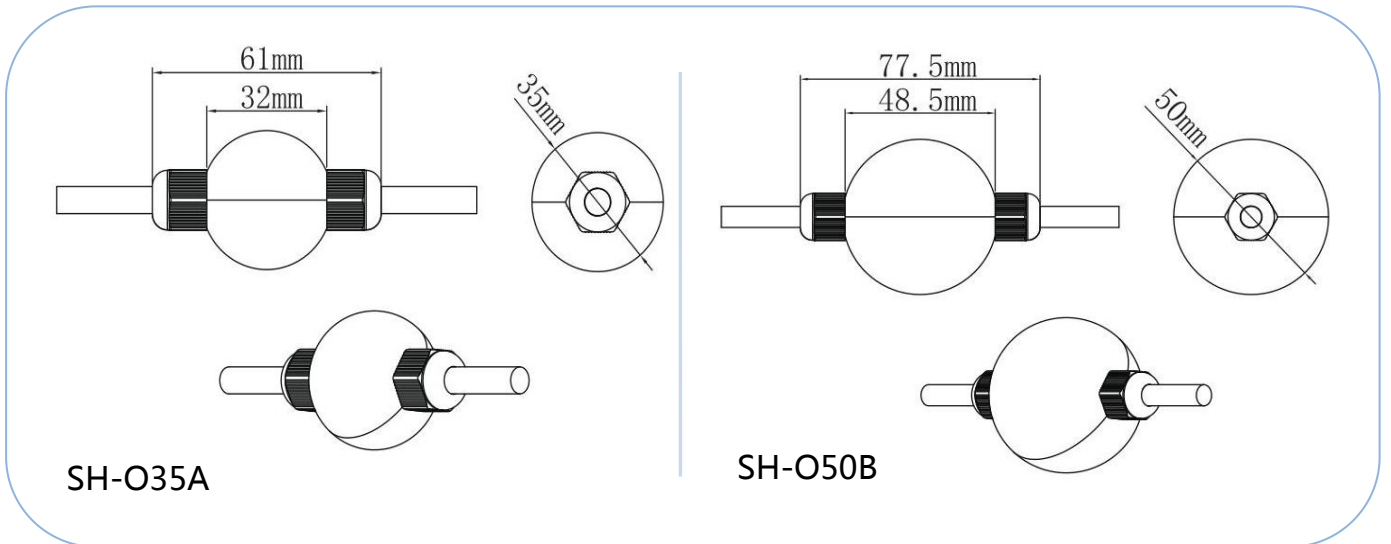

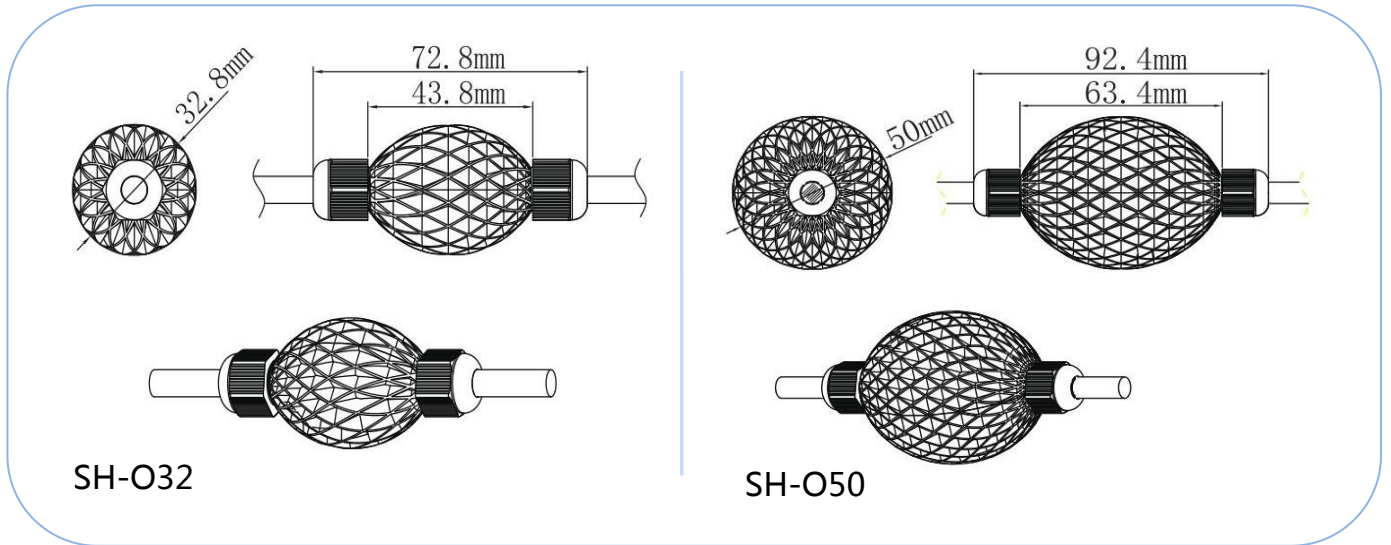

It is suitable for places in densely populated areas such as festivals of lights, large shopping malls, bridges, hotels, city squares, theme parks, commercial streets, entertainment venues, and tourist attractions. Realize night view viewing and human-machine interactive entertainment experience.
